

Practitioner's Docket No. 200303.00014

TFW
2831
Receipt
PATENT

IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

In re application of: Masashi Ozawa, Masayuki Takeda and Makoto Ue

Application No.: 10/534,155

Group No.: 2831

Filed: 11/07/2005

Examiner: Not yet assigned

For: ELECTROLYTIC CAPACITOR MANUFACTURING METHOD

MAIL STOP MISSING PARTS

Commissioner for Patents

P.O. Box 1450

Alexandria, VA 22313-1450

REQUEST FOR CORRECTED FILING RECEIPT

1. Attached is a copy of the official filing receipt received from the PTO in the above application for which issuance of a corrected filing receipt is respectfully requested. The information for which correction is requested is noted thereon.
2. There is an error with respect to the following, which is omitted.

Error in

1. Additional Assignee omitted

Correct data

1. Additional Assignee - Mitsubishi Chemical Corporation

The enclosed Application Data Sheet is being filed to facilitate correction of the omission of an assignee in the name of Mitsubishi Chemical Corporation. The names of joint assignees Nippon Chemi-Con Corporation and Mitsubishi Chemical Corporation are both clearly shown in the International Publication of this application, the first page of which is enclosed herewith. No fees are believed to be due. However, in the event that a fee is due with this paper, the Commissioner is authorized to charge Deposit Account No. 15-0450.

ADDITIONAL DOCUMENT SUBMITTED

3. Front Page of International Publication WO2004/042760

Date: 27 March 2006

Reg. No.: 42,451

FILING RECEIPT

OC000000018097552

Date Mailed: 02/27/2006

Receipt is acknowledged of this regular Patent Application. It will be considered in its order and you will be notified as to the results of the examination. Be sure to provide the U.S. APPLICATION NUMBER, FILING DATE, NAME OF APPLICANT, and TITLE OF INVENTION when inquiring about this application. Fees transmitted by check or draft are subject to collection. Please verify the accuracy of the data presented on this receipt. If an error is noted on this Filing Receipt, please mail to the Commissioner for Patents P.O. Box 1450 Alexandria Va 22313-1450. Please provide a copy of this Filing Receipt with the changes noted thereon. If you received a "Notice to File Missing Parts" for this application, please submit any corrections to this Filing Receipt with your reply to the Notice. When the USPTO processes the reply to the Notice, the USPTO will generate another Filing Receipt incorporating the requested corrections (if appropriate).

Title

Electrolytic capacitor manufacturing method

Preliminary Class

361

PROTECTING YOUR INVENTION OUTSIDE THE UNITED STATES

Since the rights granted by a U.S. patent extend only throughout the territory of the United States and have no effect in a foreign country, an inventor who wishes patent protection in another country must apply for a patent in a specific country or in regional patent offices. Applicants may wish to consider the filing of an international application under the Patent Cooperation Treaty (PCT). An international (PCT) application generally has the same effect as a regular national patent application in each PCT-member country. The PCT process **simplifies** the filing of patent applications on the same invention in member countries, but **does not result** in a grant of "an international patent" and does not eliminate the need of applicants to file additional documents and fees in countries where patent protection is desired.

Almost every country has its own patent law, and a person desiring a patent in a particular country must make an application for patent in that country in accordance with its particular laws. Since the laws of many countries differ in various respects from the patent law of the United States, applicants are advised to seek guidance from specific foreign countries to ensure that patent rights are not lost prematurely.

Applicants also are advised that in the case of inventions made in the United States, the Director of the USPTO must issue a license before applicants can apply for a patent in a foreign country. The filing of a U.S. patent application serves as a request for a foreign filing license. The application's filing receipt contains further information and guidance as to the status of applicant's license for foreign filing.

Applicants may wish to consult the USPTO booklet, "General Information Concerning Patents" (specifically, the section entitled "Treaties and Foreign Patents") for more information on timeframes and deadlines for filing foreign patent applications. The guide is available either by contacting the USPTO Contact Center at 800-786-9199, or it can be viewed on the USPTO website at <http://www.uspto.gov/web/offices/pac/doc/general/index.html>.

For information on preventing theft of your intellectual property (patents, trademarks and copyrights), you may wish to consult the U.S. Government website, <http://www.stopfakes.gov>. Part of a Department of Commerce initiative, this website includes self-help "toolkits" giving innovators guidance on how to protect intellectual property in specific countries such as China, Korea and Mexico. For questions regarding patent enforcement issues, applicants may call the U.S. Government hotline at 1-866-999-HALT (1-866-999-4158).

**LICENSE FOR FOREIGN FILING UNDER
Title 35, United States Code, Section 184
Title 37, Code of Federal Regulations, 5.11 & 5.15**

GRANTED

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Bureau of Industry and Security, Department of Commerce (15 CFR parts 730-774); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

NOT GRANTED

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).

Application Data Sheet

Applicant Information

Filing Date:: November 7, 2005
Application Type:: Regular
Subject Matter: Utility
Title: ELECTROLYTIC CAPACITOR
MANUFACTURING METHOD
Attorney Docket Number:: 200303.00014
Total Drawing Sheets:: 0
Small Entity?:: No

Applicant Information

Applicant Authority Type:: Inventor
Primary Citizenship: Japanese
Country:: Japan
Status:: Full Capacity
Given Name:: Masashi
Family Name:: Ozawa
City of Residence:: Tokyo
Country of Residence:: Japan
Street of Mailing Address:: c/o Nippon Chemi-Con Corporation
167-1, Higashiome 1-chome, Ome-shi
City of Mailing Address:: Tokyo
Country of Mailing Address:: Japan
Postal or Zip Code of Mailing Address:: 198-8501

(54) Title: ELECTROLYTIC CAPACITOR MANUFACTURING METHOD

(54) 発明の名称: 電解コンデンサの製造方法

(57) Abstract: An electrolytic capacitor having a low impedance characteristic, a high breakdown voltage characteristic of the order of 100 V, and a favorable high-temperature life characteristic. The electrolyte is for electrolytic capacitors and contains aluminum tetrafluorate. The water content of the capacitor body is 0.7 weight% or less based on the weight of the capacitor body, preferably 0.5 weight% or less, further preferably 0.4 weight% or less. Thus an electrolytic capacitor having the above characteristics is provided.

(57) 要約: 低インピーダンス特性を有し、さらに 100V 級の高耐電圧特性を有し、高温寿命特性も良好な電解コンデンサを提供する。四弗化アルミニウム塩を含有する電解コンデンサ用電解液を用い、コンデンサ素子に含有される水分量をコンデンサ素子重量の 0.7 wt % 以下、好ましくは 0.5 wt % 以下、さらに好ましくは 0.4 wt % 以下としているので、低インピーダンス特性、高耐電圧特性を有し、高温寿命特性も良好な電解コンデンサを提供することができる。
